EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Gina McCarthy on 10/08/2003.

The application has been amended as follows:

The abstract has been replaced with --A switch (1) comprising an outer housing (3) and an inner component (5); switch means (13) operable to provide a signal upon depression of said outer housing (3) resilient biasing means (29) located between the inner component and the outer housing to provide a force which bias the outer housing from the inner component; and means (9, 17) for varying the spacing between the inner component and the outer housing and hence the biasing force provided by said resilient biasing means--.

REASONS FOR ALLOWANCE

2. Claims 1 – 16 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest, in combination with the claimed elements, a switch with an outer housing, an inner component, resilient means located between the outer housing and the inner component to provide the force, that biases the outer housing from the inner component and, switch means operable to

provide a signal upon depression of the outer housing and wherein rotation of the housing causes the biasing force provided by the resilient means to vary.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
